“ I was Miss Betty and her sister Marilyn Caregiver . They both made me look forward to coming to work each night, always full of life and joy. Due to Covid, they haven't been able to have interactions with family as much but they made me feel like family.

Miss Betty would always call me a different name each time I seen her , but it was so cute I didn't bother to correct her. She would tell me “You can't take anymore days off it's not the same without you.” Well now that your gone , It's not the same without you!

Marilyn ,never really needed much but ice and maybe some orange juice. She would always tell me “Make sure you have a BLESSED day.”

It was a pleasure working with the both of you! Please continue to get your rest. You both will always be truly missed.
