“ I have many many loving and fond memories of Dolly. She was my cousin through marriage, but we could not have been closer if we were blood. We did almost everything together in our early years. She was always kind and caring like an older sister. Once when she was 16 and I was about 12, she took me to see a movie and afterwards to the first pizza parlor that opened in Detroit. I have never forgot. I will always cherish, remember, and miss those years.

Later as an adult, I lived with Dolly and Bill for about three years. They were great years.

Dolly, God bless you and rest in peace.

“ Thank you mom, for everything you have done for me my whole life. I really enjoyed the times I spent with you at your apartment talking and watching your favorite shows and asking what time the game was on because you really did like watching it with me. I will make a Pysanky egg for you every year and carry on all your family traditions. Please give dad and the boys hugs for me. I will miss you. I love you, Ron

“ We were so lucky to have Nana in our lives. She was my first best friend. I'll never forget seeing her Cadillac in the driveway on Fridays and sprinting home from the bus stop. Her and my mom were usually rocking on the porch waiting for us. We didn't have a guest room at our house so we always shared my room. We would giggle at night and say I love you more back and forth until someone fell asleep. At the cottage she was always our biggest cheerleader. She loved watching us out on the water or playing in the yard.

One of my favorite memories of my grandma is the first time I visited her in Florida without my mom and dad. I was so nervous about staying the night without them, I was sick to my stomach for weeks in advance. My nana and I regularly emailed while she was there and I sent her a 10 point check list stating my conditions for coming. Most of them being that she be awake when I get there, I sleep in the same room as her, and she would stay up with me if I got scared or sad. Of course she hit every point and more, making it a yearly tradition we all will never forget. I love you so much Nana, until we meet again.

“ Mom you were a great woman. No you were super woman. You made sure all of us had a great childhood and even into adulthood you always wanted to take care of us. One of my favorite memories of mom is packing up my brothers and sister and going to the cottage. While we spent the entire summers there she would always plan out trips to different places so we did not get bored. Mom I Love you and Rest In Peace.

“ Mom, you are the best mom any girl could ever have. From the time I was born you were and always will be my best friend. We had our own language and when we wanted to laugh and giggle you would speak it to me. We had to stick together since we were the only girls in the family lol. I will never forget all that you shared with me. You taught me what it is to be a mom. When we wanted a friend to tag along, you always found room even though you had enough kids of your own to take care of. You always found room for people to stay with us when they didn't have a place to rest their head. The cottage was your favorite place.....there we learned what it was to be a family. Wherever I am and wherever life takes me you will always be with me! I will remember you and love you forever and ever. I pray that you are the one that comes to get me when it's my time! xoxoxo Love, Tammy

“ Mrs Kinnie was a wonderful lady. I Have fond memories of her for sure. She always made sure we didn't leave the cottage hungry boy she had the best snacks. I thought it was so cool that she offered us pop, something we didn't have at home on a regular basis!! I'll never forget the time we were shopping at Meijers Thrifty Acres in Greenville, with her. Sherry stole a pack of gum, & low & behold she got caught. Because Lori & I were with her we were accomplices, & taken to the back room held in hostage. They paged Mrs K over the loud speaker & took her to the back room. That's when they told her we stole a pack of gum. Omg Mrs K ripped into the store manager saying NO WAY did we steal... she got us girls out of big trouble. She defended us even though she knew we had indeed stole it. She lectured us all the way home. Well let me tell you that was one lesson we learned. I loved her to pieces she was one of a kind. The memories go on... "GOD" broke the mold for sure when he made her. With Our deepest sympathy, & luv sent to the Kinnie family. She's now finally at peace. Prayers sent high above with our Luv Linda Powell, Brandon & Jennifer

“ Funny thing is...I was going to say the same thing Linda wrote. I remember “the candy cupboard”. Good lord I was in heaven. And the Meijer situation I thought I stole the gum. And yes indeed Mrs. Kinnie treated us like we were her own. She defended us to the point I think she scared the manager into letting us go “those girls would never steal”. I also can say she loved our mother and treated her like a sister. Kinnie family you are in my thoughts and prayers and I will always have great childhood to adult memories of all the times we shared.

“ I have so many happy memories of Mrs Kinnie she was a loving beautiful lady that always greeted me with a huge smile hug and a kiss. She loved her family so much I remember how she would go from cottage to Warren and back just to take kids to their sports. There was always laughter at the cottage her favorite place .I know she is happy to be reunited with Mr Kinnie and all her family and friends. She will be missed. Rest In Peace Mrs Kinnie. Love Judy Mitts

“ My very first memory of mom was the first time I met her. Ron said when you meet my mom you have to give her a hug and a kiss. That’s exactly what I did and she was so warm and loving; from that very moment I felt I was part of the family. She welcomed everyone with open arms and only wanted them to be happy. She was very nurturing and took care of the whole family. Mom would go out of her way to make sure that if you wanted something she would get it for you, even if she went to 10 different stores to find it. When Ron and I first started dating I mentioned I like these Snickers ice cream bars she bought. Well, let’s just say her freezer was always stocked with Snickers Ice cream bars and I had to have one every time I was there. That’s the way she was with everyone, we will hold dear all these great memories and being a wonderful example of a loving mother.

“ My favorite memory with my grandma is when she’d babysit my sister and I we’d always wake up to her ready to watch us get all dolled up and dance for her with a dozen Dunkin’ Donuts. Rest In Peace grandma I love you so much.
