

## Robert Anthony Rogers

April 20, 1933 - June 7, 2020

Robert Anthony Rogers passed away on June 7, 2020 at the age of 86 at Henry Ford Macomb Hospital in Clinton Township, Michigan. Robert was born on April 20, 1933 in Detroit to William and Ann Rogers. Robert was raised in the city of Detroit attending De La Salle Collegiate High School in Detroit. Once Robert finished his studies in high school he continued his education at Wayne State and finally at Lawrence Tech earning his degree in Electrical Engineering. Bob spent his career at General Motors and Ovonic Battery Company. When Bob wasn't tinkering on a project Bob could be found using his task oriented personality while working on puzzles. He is the beloved husband of 51 years of Rosalie Rogers. Loving father of William Rogers. A memorial visitation will be held in Bob's memory on Wednesday, June 24, 2020 from 2-8 PM at the Wasik Funeral Home, Inc. 49150 Schoenherr Rd.(n. of 22 Mile Rd.), Shleby Twp., MI

In accordance with Michigan's ongoing executive orders the capacity of the visitation rooms at the funeral home is limited to 10 occupants. We ask that those that plan to visit and express their condolences limit the time of their visit so that other's may also be afforded the opportunity.

“ Hi Aunt Rose and Bill, I will always remember Uncle Bob as an incredibly smart, very kind and gentle person. He seemed to have endless patience for explaining things and answering questions. I remember him being very good with electronics and a big fan of airplanes. I am sure that he has gone on to a better place.

“ Bob is my cousin. He was an extremely bright, intelligent, and unpretentious man. His natural humility brought out the best from those who knew him. His mother (my aunt Anna) raised him to be a kind and compassionate christian.

“ Hi Rosalie, My name is Dennis Duchene, I known Bob from Working with him at Ovonic Battery co. Bob remembers me as the opera singer always singing. My wife Maria and I send are condolences to you and your son, Bob will always be in our prayers, it was a great pleasure to work with him and have him as a friend. Take care , Dennis.

“ I would tell Bob he was my own personal Saint Joseph. He was the most patient and kind person I have ever loved.

**Rosalie Rogers** - June 18, 2020 at 06:30 PM

“ I really enjoyed working alongside Bob from 1994-1999 at Ovonic Battery. For a large part of this time our desks were back to back with bookshelves between us. Bob was skilled and meticulous in his work. He always had many stacks of paper on his desk very neatly arranged. He would also provide the office with these big plastic barrels of mustard flavored pretzels! I remember Bob loading up his blue Oldsmobile tornado to ferry and set up batteries to test at Argonne lab in Illinois or GM labs down in Indiana. Bob came into work early and liked to leave on time. He definitely did not appreciate meetings that started at 5:00 p.m.!! As a family guy who had a bit of a commute, you know he didn't want to be late for dinner!! I'll miss you Bob!

“ Rosalie and Bill, I knew Bob through my husband Ty and his friends from WSU Newman Club. Ty spoke of Bob often Over the years as a kind, quiet, caring friend. Ty was so impressed with Bob's creative intelligence. He often said that Bob was one of the smartest men he had ever met. My sincere sympathy for your loss of a loving, kind, and patient husband and a loving, caring father. May your memories of Bab bring you peace.
