“ My name is Evan and I knew Andi when I started working at Kroger in 2021. She was my coworker at Kroger when she worked there and I used to bag for her when she cashed people out at the register. She told me about how she got COVID and then she quit Kroger and I decided to send her a text to see how she was doing and she told me that she had post COVID and was doing door dash to make money. I as of today heard of her passing and I was very shocked as she was an awesome person and an awesome coworker of mine that I had at the time of me being a bagger for Kroger last year. She reminded me of my grandma who had passed away in 2018 and she was always very kind to me and when I needed advice about things that came up in life I could ask her and she would give me (in my opinion) some very good advice. It sucks that I just learned about what happened to her now since I wasn't super close to her but my thoughts and prayers go out to her family. She was a wonderful person.

JO

“ Andi was a very special person. One of my best friends. She always put others before herself. Truly a sweet, caring lady. She will be missed. A special memory of Andi was when she made homemade pizzas with our kids. She brought over tubs of stuff to make them. The kids had a great time with her. Our fur babies will miss her too. She left us too soon. ❤️

“ I have so many good memories of Andrea growing up! Like when we used to practice dancing in her parents basement, hoping that someday we would be as good as the girls on American bandstand! Or how we would spend the night at each other's houses and stay up all night, and sometimes sneak outside at night just because we could! And how when we babysat for Jeff, we would help him eat his baby food dessert! She will be missed
