“ I still can't believe you left us and went to heaven. I have so many memories with Angela as we have been friends for over 20 years. She was so talented she amazed me with all the art she designed. The one year she wrapped my parents car for the Relay for life cancer walk I posted pictures below and also designed tshirts for our whole team. Everyone just loved the car and was taking pictures with it. I also posted a pic of us on Halloween years ago when she made her costume Animal from the muppets. Angela was such a smart and loving friend that went through so much in her life and always fought hard to make her life even better with all her talents. She loved her kids more then life and her best friend Ann that was always there day and night for her and helped her whenever she needed her. Please keep Ann and Kaleigh and Noah in your prayers during this very difficult time. Angela you touched so many peoples life's I don't even think you knew how much you were loved. Fly high and watch over all of us. Till we meet again. Love you
