“ I was so sorry to hear about Tony's sudden passing. He told me many times how much he was looking forward to retirement. He was a great guy to work with and I enjoyed his company. Always patient with a non-technical type like me, who has been known to frustrate IT folks. When my home computer with years of family photos crashed, Tony helped me with a solution. I only have those precious memories now because of him and I will always be grateful.

“ I worked with Tony for some years. I came to know him as a guy with a sharp sense of humor and a keen observer of human behavior. He could have written a book on the adventures of an IT Guy.

He had pictures and stories of his grand babies in his office. He would light up when telling stories about them. Family was home.

I miss you Anthony.
