“ *Mom I miss you. I know your out of pain and in Peace now but I think of you all day long the last week and a half. I'm so thankful for the time we had together at home when I would stay with you. At the nursing home you and I had time to talk, listen to Dean Martin and Hank Williams and talk about all the grandchildren and great grandchildren. That always made you smile. All your kids miss you. So many times I want to call you and talk about how we spent our day. Every time I get in the car I want to call you because I always did. At night I want to call you before I fall asleep to say good night. You would always say "where are you "and I would say "in bed going to sleep." When the 11 o'clock news comes on I want to call you. The last 12 days I just want to lay around and think of you staring into space. I'm thankful for all the time we had together especially at the end. Also I think we had some great moments and laughs together I think we said everything we had to. Thank you for holding on till all of your kids, Amanda and Craig got there. It was almost beautiful in that we were all there to tell you we love you one more time, to stroke your hair, and then we knew we had to tell you it was alright for you to go now that we would be ok and look out for each other. That was so hard mom but we knew God had your hand and dad was waiting for you. Rest now mom we love you .*
