“ I met you in High school in an English Class that I did not want to be in. However you made it fun. We started hanging out almost from the moment we met. We had Drivers ED together and you , Judy and I became so close. I adopted your family as mine right away. We worked together at Big Boys, dated best friend boyfriends twice. How weird was that. Ate lunch together every day at school. I would spend my entire weekend at your home, and your family treated me like I was theirs. We were each others Maid of Honor, got pregnant with our daughters together, and tried to be there for each other through our hard years of Divorce. Our Parents met each other and married ,and my best friend became my Sweet Sister. It is so sad that distance took us on different paths. However you will always hold a special part in my heart. I love you Carolyn. Your Mom always had a curfew for you when we were Teens. I loved that. I craved that from a parent that would care. I would always follow your curfew and get to your home before you. You were the free spirit and would fly in a the door a bit late. Your Mom giving you a lecture ,and saying you should be more like me (sorry about that). But guess what you beat me Home this time. So give our Dads a hug ,and a Really big Kiss for me, and I will see you as soon as I get home. All my Love Terry

“ My heartaches for all of Carols family (children , grandchildren and Glenn(her husband). I had the pleasure to work along side carol for the last 5 years. To her , I was like her Daughter , Lisa . She often would tell me we had the same personalities . To me , she was a like a mom I was yearning for , because I lost mine . Carol often was called Ms America at work. Or Mom by many of us . I can't even put into words how much her family meant to her . Her hockey star grandson , her children, grandchildren - being called "Grandmama" . Her grand babies were her pride and joy. I got to watch her gloat at her phone seeing a video , of her Grandbabies singing talking , and Stevie (her son) always sharing one of them riding , and causing her grief . She made fun of you , Stevie for loving your ICP haha. And loved every phone call you made to her on your ride home . As for Glenn, you were her savior! You may have not known that , but we laughed at you too. She loved each and everyone one of you , don't ever forget it! You made her PROUD. My heart goes out to everyone of you! Shelly Kunnath
