“ Rob, Patty and I would to send along our prayers and sympathies to you and your family over the passing of your father. It is clear that his passion for hockey has been passed onto his children and grandchildren. I hope that you are well and look forward to seeing you on the ice sometime soon.

“ Charlie provided and gave so much to many people – family, friends, church, business, and neighborhood. He provided good jobs and guidance to many kids and sponsored and coached many teams. I can still recall mental images of him on the ball field – teaching us and coaching us in the summer heat after a hard day’s work. He was an honest businessman and took great pride in the company and his work. I was proud to work for him and thankful for all that he gave to us. He is a shining example of the people from the “Greatest Generation”. God will provide Charlie a peaceful rest from his tireless life.##imported-begin##Brian A Henk##imported-end##

“ My memories of Mr Pomaville were those from younger days...church functions, in the usher's club/mens club at St Dorothy's with my Dad. Festivals and a man with the biggest smile during the 'offerings and collections' at church. He served the Lord and is now smiling into his loving face. My thoughts and prayers go out to you all. God bless you now and always.##imported-begin##Pam (Tunesi) Dilluvio##imported-end##

“ Dear Dolly,

I know losing the love of your life will be a void in your heart, however, remember Chuck will always be with you and just think, now he's laughing with our dads and Uncle Bob, Auntie Margaret and we can't forget Uncle Leonard! May God give you comfort.

Sincerely,

“ I was five years old when Chuck married my sister Dolly. He was a big brother to me. He was the most kind and caring person I know. He welcomed my mother into his home after my father died and took care of her as if she was his own mother. He gave many young men a start in the roofing business. His love for my sister was always apparent. I will miss him.###imported-begin###Pat (Kortas) Dembinski###imported-end##
