“ *Dad took his camera everywhere he went. Whether it was a social function, an exploration trip, watching animals or experiencing a thunderstorm. He photographed everything. Our childhood memories were well preserved. He loved experiencing life and experiencing it with his loved ones. Thank you dad for the wonderful memories. I love you.*

“ *My dad was the best. He would do anything for his family! He will be greatly missed! I've always loved to share the story when his swim trunks tore in half. I was so scared to go down this water slide at our favorite water park. My dad thought he would go down it to show me it was nothing to fear. Well after seeing his shorts after coming down, i never went down the slide. We even talked about that before he passed. One of my favorite memories. Him coming out of that pool with half his shorts missing!! The best dad!*
