“ *I remember how much Frank loved all science with a BIG emphasis on astronomy. He would talk to me for hours about the stars and the planets and how the planet's lined up and how to recognize the different constellations. I was amazed when he let me gaze through his telescope (that he made) and I saw the planet Saturn. So beautiful!*

*Now, Frank, here you are beyond the Earth's atmosphere and standing with the Creator of the Universe.*

*You will be missed dear Frank.*

*Your brother, Paul*
