“ Jim was one of the first Engineers with whom I had occasion to work with at Detroit Edison in the Mid 60's. It's been more than a few years since then but I'll not forget Jim's humor and patience in helping a fledgling engineer overcome momentary lapses into "Scheer" stupidity.##imported-begin##Luke J. “ Hello,

I was at Waltonwood this morning to visit, my good friend Jim, when I was told the news. I will really miss him, and our chats we had over the past few years. And, especially all the miles we traveled together, walking the Hallways at Waltonwood.

My deepest sympathy to the family.##imported-begin##Fred Humig##imported-end##
