“ *Joann was a tender hearted lady with listening ears and a big smile. She opened her house up to everyone and always had something to snack on. I remember sitting at her table and having so many wonderful conversations. Christmas was so special to her, and she loved her decorations.*

My mother in law (Irene) use to love talking with her as well. Joann was easy to like an love.

Joann loved her grandchildren and our oldest grandson Bryce lived with her. She lived for her children an grandkids. And they all thought that she could walk on water, an to them she did.

She left life early but she lived a powerful life to those around her. Both Ron an I loved her and I know someday in Heaven we will see her again. Rest in peace lovely lady.

“ Jo was the best neighbor! I have missed seeing her in the yard planting and watering her flowers. I was also hoping she was getting better. I remember the last conversation with her...she yelled out her bedroom window .."hey I wanted you to know I'm still alive in here . And we talked about Covid and her health. And she always asked about my kids. May she Rest In Peace.
