“ I had the pleasure of working with Ken on a hybrid personnel effort that placed people of different disciplines on the same Team. Ken’s exceptional technical skills were only exceeded by his pleasant demeanor and wit. I learned a lot of Quality Control wisdom that helped me in my career. My prayers to Ken’s family and knowing Ken is now happily on Heaven’s rifle range hitting bullseyes!

“ Hi uncle Ken I will miss you so much I will always remember all the times we spent and great conversations we had. When I was a kid I remember thinking u were like my own chuck Norris. I remember u teaching Jess how to fight you qlways said it was importantto know how to protect yourself. I thought u were so strong. And all the times u would beat all the boys in arm wrestling and strength things i can still see that solid face you would give with a small smile. I hope to someday see you again. The family won't be the same without you around you were a puzzle piece to our family. I love you uncle Ken
