“ *It's hard when we lose someone we love especially when they are so young. They have just began living their lives. They will always be apart of our life. Why? We have pictures, videos, texts, gatherings and vacations of them. Sometimes it takes years for us to adjust to their death and with others they will never move on with their lives*

Missy was the daughter of Monty and Kim, sister of Paige, niece of Cali, and the granddaughter of my mom's youngest sister Gail Bedell. She was very special to us all and touched so many people with her special gift of making anyone she came in contact with feel better in every way! No one in our family escaped the special gift passed on by Mimi, the matriarch of our family. Thank you Mimi and God bless Missy!
