“ *Missing my dad*

“ *I was just thinking about Rickey today and what a bigger than life personality he was! I worked with Rick supplying pipe, valves and fittings when he was a supervisor for General Motors direct at the Tech Center in Warren. Rick was always doing majors projects and need material fast and did a lot of weekend projects. We did a lot of work together and I was one of his main suppliers because he knew he could trust me to answer my phone and take care of his crew. Once you Rick trusted you you we a friend for life. After he left the Tech center I lost track of Rick for a while but ended up getting his number and we would talk once or twice a year. I thought the work of Rick and he always talked about his family and how much family meant to him. I also loved his laugh - he had a big rolling laugh and he like to work hard and laugh a little as well.*

“ I had the pleasure of working with Rickey at the Global Technical Center for about 7 years. One of the most knowledgeable employees that I have ever met. We leaned on Rickey to get us through many maintenance issues that arose on campus. Always upbeat and professional. You will be truly missed my friend. Rest in peace. Todd Davis

“ Rick was a great friend, boss and mentor to me. I've only had the pleasure of knowing him for 5 years but it's seems as though it's been a lifetime. He will truly be missed. I will always remember him. Rest in peace my friend.
