“ My Sylvie,

As I sit down to share some feelings I cant help but feel so many of us were robbed of many more unforgettable memories with you. I met you the day I met my wife (Rose), you could say that you sort of played cupid for us that day. What I didn't realize was not only did you help me find the love of my life, but I also got one of the best friends I could ever hope for. There's no way to list ALL the amazing memories we've shared together but I have to remember a few. Raising our beautiful children together, all our Summer's camping on the Beach, the vacations, card games, Spartan Football Games, New Years Eve parties, Meghan's Wedding (you looked so beautiful, and HAPPY) the singalongs, the dinners, all the laughs and the tears, always there for each other through the best and worst of times. The truth is that you and Steve have been such an important part of who we are and the very closest of friends almost since the day we met. There are no words to describe the heartache and sadness I am feeling knowing that you won't be there with a hug or a smile or to put me in my place as only you can do. So I will hold you close in my heart every day. They say a "true friend" is someone who knows everything about you and still loves you, well I know you love me and that makes me smile. I thank God for bringing you into my life and making it so much better. You were taken from us too soon and so suddenly that I, like many I'm sure would like just one more moment to hug you and tell you how much I love you. Please know that I will stay close to Steve and be there now and always for him, believe me, I need him as much as he needs me. You've made such a difference in our life so I'll ask you to please watch over us. I know you're in the place we all hope to be one day, so my faith tells me we will meet again. Rest well, I'll miss you my "corner girl". Love, Mark

“ *Sylvia has passed into the Lord's company. I express my condolences to all the family and friends of Sylvia. Sylvia and I go back many years from her days at Harper Woods Notre Dame to her tenure as a teacher and colleague at Notre Dame Prep. She was a wonderful person and a very good teacher. I will miss her presence around our school as will the students and other staff members. On behalf of the Marist Fathers, Brother Louis, staff and students we offer our admiration and prayers for Sylvia, now a child of the Kingdom of our God. Let us know, if we can help any way.*

Fr. Leon Olszamowski, s.m., Corporate President at Notre Dame Preparatory School and Marist Academy

“ Mrs. Mulrenin's chemistry class was honestly the toughest class I ever took at NDP, period. I straight up failed the very first quiz, and from there it was a constant fight uphill after that. However, that class prepared me for college in a way I only now realize. After taking chemistry in college, along with physics, micro and macro biology, I applied the same study methods that I used to pass that class to pass my collegiate courses. Doing every practice problem, finishing all the homework thoroughly, and making sure to take notes in class and review those as well led to my success both in high school and in college (so far). The biggest lesson Mulrenin taught me was being okay with not getting an A or a B on every test in an extremely difficult class. I remember hearing kids freak out about their grades on every exam, plagued with anxiety and stricken with the need to get an A. Mrs. Mulrenin taught me that as long as you put your all into it, the grade you get is what you get, and that's the best you can get, so be happy with that. Thank you Mrs. Mulrenin for teaching me that resilience, it has proved to be one of my greatest assets in college. NDP, while still wonderful, will be lesser without such a teacher like you in its faculty. Thank you for being my teacher.

Sincerely and warmly,
Marshall Lee Weimer

“ Mrs. Mulrenin taught both my sons chemistry at NDP. IB Chemistry was a tough class, but it taught them to work and study hard. My oldest who is at MSU credits Mrs. Mulrenin with making college chemistry "easy!" My youngest is in this photograph with her teaching during the 2017-18 school year. Prayers of comfort and peace to her family, friends and students!

Chemistry teacher
Mulrenin also is co-chair

“ Sylvia was my neighbor for 22 years, in all that time she was always very nice to everyone. She loved walking her dog after work and always had something positive to say when she encountered someone. I couldn't have asked for a better neighbor she will be truly missed may she Rest In Peace 🙏😭

“*Sylvia was a beloved teacher whose passion for science and learning impacted thousands of students from both Notre Dame High School and Notre Dame Preparatory School over her 26 year career with Marist schools. Sylvia taught the highest levels of chemistry, including AP, IB and Honors. It was difficult material and she challenged her students to be there best. She was never considered an "easy" teacher, but her students were energized by her passion. They knew she cared about them and they loved her for it. Her practical, sometimes cynical, but always positive outlook on life made her popular among teachers, staff and students. Parents knew that their children would learn and progress under her leadership. It was obvious that she loved her family above all and she will be sorely missed by all who knew her. Notre Dame is a better school and better community having had Sylvia as part of our family. We are forever grateful to Sylvia for her life-long dedication to our mission, the Catholic faith, education, the Marists and our students. Rest in peace, sweet angel of Christ. You will always be remembered.*
