“ Vicki was an amazing person ❤️ she was sassy, hilarious and super compassionate. She gave all of herself in everything she did. I had the pleasure of working with her at Medilodge and she has been greatly missed by all. I have had many conversations with her that usually started with "okay listen" or "okay wait a minute" lol and usually lasted at least 20 minutes. We have had residents that would ask for her even if she was scheduled to a different area, but she would always come and help them. We have had residents that wouldn't cooperate with anyone but her. I could go on and on about how awesome she is, but we all know...

“ When I saw this obituary it made my heart drop. I knew vikki from working with her and she was such a caring person that touched many peoples lives and hearts by doing the job she loved. I wanted to be like her someday and how amazing she was! When I first started off at that job I would basically follow her around like I was a lost puppy and she always knew the right path. Vikki was a smart, loving, funny, and always talking about her family that she loved so much. She would brighten the room and make people smile. My condolences go out to her family but I know that she will watch over you guys and every single one of her family members have gained a Guardian angle watching over them.
